

RADEME BUDHAI

MOBILE DEVELOPER

I have over 5 years of work and personal experience developing mobile apps and websites. I can build and design apps from an idea into a finished product. I have published apps for iOS and Android and I also have experience building web apps and APIs.

EXPERIENCE

SEP 2019 -
PRESENT

+ HTM, JAPAN

DEVELOPER

At HTM I work on development projects that draws on the many skills I've gained over the years:

- I develop backend and frontend systems using C#, SignalR and Vue.js. Two recent projects I worked on are a brainstorming system and project management system.
- I do bug fixes and developing new features for existing systems. I'm responsible maintaining the Expense and Time management System.

I am also involved in marketing. I help to create videos that are used for online marketing.

Stack: Vue.js, C#, ASP.NET, MS SQL, SignalR

NOV 2017 -
SEP 2019

+ TABLECROSS, JAPAN

LEAD MOBILE APPLICATION DEVELOPER

At Tablecross it was my responsibility to manage and maintain the code and design for the iOS/Android apps:

- I overhauled the apps in 2017 with a new design and new features.
- I developed and designed the UI/UX for new and existing features.
- I made reports using Firebase and Google Data Studio to show user behaviors and patterns.
- I did Funnel analysis to better optimize features.
- I created strategies to increase users.

While at Tablecross I was also involved in marketing:

- I came up with campaigns to increase users.
- I designed the banners and web sites for said campaigns using Sketch and Figma.

Stack: Swift, Objective-C, Java, HTML, Sketch, Figma, Firebase and Google DataStudio.

AUG 2016 -
SEP 2019

+ BERLTIZ, JAPAN

ENGLISH INSTRUCTOR

SEP 2015 -
MAR 2016

+ THE STUDENTS' LOAN BUREAU JAMAICA

SYSTEMS ANALYST

My duties included but were not restricted to:

- Making specific proposals for modifying or replacing systems.
- Producing project feasibility reports.
- Performing system testing.
- Providing training for new systems.
- Writing queries in SQL to serve data and make reports.

Stack: C#, ASP.NET, MS SQL and HTML.

AUG 2014 -
SEP 2015

+ SHIPWIZE JAMAICA

DEVELOPER

I worked at Shipwize while I attended university.

At Shipwize, it was my responsibility to:

- Design, implement, manage and maintain the company's website, iOS and Android application.
- Determine the requirements and design as well as to build, test, implement, maintain and enhance IT systems.
- Manage Shipwize on social media such as Facebook and Twitter.

Stack: Objective-C, Xcode, and HTML.
